Policy Overview

The American Medical Association (AMA) Current Procedural Terminology (CPT®) book describes a consultation as a type of evaluation and management (E&M) service provided at the request of another physician or appropriate source, to either recommend care for a specific condition or problem, or to determine whether to accept responsibility for ongoing management of the patient's entire care or for the care of a specific condition or problem.

If, subsequent to the completion of the consultation, the consultant assumes responsibility for the management of a portion of all of the patient's condition(s), the appropriate Evaluation and Management (E&M) procedure code for the location of service should be reported. The appropriate follow up codes for the hospital setting are CPT codes 99231-99233, and the appropriate follow up codes for the nursing facility setting are CPT codes 99307-99310.

The purpose of this policy is to outline how Louisiana Healthcare Connections evaluates CPT consultation codes 99251-99255 and HCPCS codes G0406-G0408 for reimbursement, particularly identifying those that should have been billed at the appropriate level of subsequent hospital care.

CMS no longer recognizes codes 99241-99245 and 99251-99255 for Medicare payment; therefore, providers should never bill these codes for Medicare members. Instead, (for Medicare members) providers should report the appropriate Evaluation and Management code payable under the fee schedule (including for visits that could be described by CPT consultation codes), that identifies where the visit occurred and the complexity of the visit performed.

Reimbursement

Claim lines that contain an inpatient consultation procedure code billed within five days of another inpatient consultation procedure will be denied.

Services initiated by a parent and/or family and not requested by a physician or other appropriate source should not be reported using the CPT consultation codes 99251-99255 or HCPCS consultation codes G0406-G0408, but may be reported using appropriate office visit, hospital care, home service or domiciliary/rest home care codes.

E&M services that occur after the initial consultation during a single admission should be reported using non-consultation E&M codes. The appropriate follow up codes for the hospital setting are CPT codes 99231-99233, and the appropriate follow up codes for the nursing facility setting are CPT codes 99307-99310.
