Description:

Louisiana Healthcare Connections (LHCC) Operations Claims Reimbursement Policy.

To ensure appropriate reimbursement for vitamin D testing is based upon medical necessity criteria.

Policy/Criteria:

Effective 12/1/2020, It is the policy of LHCC that 25-hydroxy and 1, 25 dihydroxy vitamin D testing in healthy, asymptomatic adults and children is not medically necessary because these tests have not been demonstrated to have a clear clinical benefit.

Frequency limit for screenings will be no more than one per year.

For members diagnosed with Vitamin D deficiency there will be a limit of four per year.

Coding Implications:

This policy references Current Procedural Terminology (CPT®). CPT® is a registered trademark of the American Medical Association. All CPT codes and descriptions are copyrighted 2020, American Medical Association. All rights reserved. CPT codes and CPT descriptions are from the current manuals and those included herein are not intended to be all-inclusive. Codes referenced in this policy are for informational purposes only and may not support medical necessity. Inclusion or exclusion of any codes does not guarantee coverage.

Providers should reference the most up-to-date sources of professional coding guidance prior to the submission of claims for reimbursement of covered services.

A claim submitted without a valid ICD-10-CM diagnosis code will be returned to the provider as an incomplete claim.

Documentation:

Documentation must justify the test(s) chosen for a particular disease entity.
